MTG Meta Analytics API

1.0 OAS 3.1

/openapi.json

API for analysing Magic: The Gathering decks and metagame data

auth

POST	/api/v1/auth/signup	Create a new user account and obtain an API key

meta

GET	/api/v1/meta/summary	Get overall metagame summary
GET	/api/v1/meta/deck-count	Get deck counts by archetype
GET	/api/v1/meta/charts/deck-count.png	Get deck count chart
GET	/api/v1/meta/winrate	Get winrate by archetype
GET	/api/v1/meta/charts/winrate.png	Get winrate chart
GET	/api/v1/meta/meta-share	Get metagame share by archetype
GET	/api/v1/meta/charts/meta-share.png	Get metagame share chart
GET	/api/v1/meta/performance	Get archetype performance scatter data
GET	/api/v1/meta/charts/performance-scatter.png	Get archetype performance scatter chart
GET	/api/v1/meta/avg-wins	Get average wins by archetype
GET	/api/v1/meta/charts/avg-wins.png	Get average wins chart
GET	/api/v1/meta/meta-share-over-time	Get metagame share over time

GET	/api/v1/meta/charts/meta-share-over-time.png	Get metagame share over time chart
GET	/api/v1/meta/winrate-over-time	Get winrate over time
GET	/api/v1/meta/charts/winrate-over-time.png	Get winrate over time chart
GET	/api/v1/meta/avg-wins-over-time	Get average wins over time
GET	/api/v1/meta/charts/avg-wins-over-time.png	Get average wins over time chart
GET	/api/v1/meta/decks/{deck_id}	Get a specific meta deck and its decklist

user-decks

POST	/api/v1/user-decks	Create a new user deck
GET	/api/v1/user-decks	List all decks for the authenticated user
GET	/api/v1/user-decks/{deck_id}	Get a single user deck
PUT	/api/v1/user-decks/{deck_id}	Rename a user deck
DELETE	/api/v1/user-decks/{deck_id}	Delete a user deck
GET	/api/v1/user-decks/{deck_id}/cards	Get cards from a user deck
POST	/api/v1/user-decks/{deck_id}/cards	Replace all cards in a user deck
PUT	/api/v1/user-decks/{deck_id}/cards	Append or update cards in a user deck
DELETE	/api/v1/user-decks/{deck_id}/cards/{card_name}	Delete a card from a user deck
GET	/api/v1/user-decks/{deck_id}/analysis/archetype	Estimate the archetype of a user deck
GET	/api/v1/user-decks/{deck_id}/analysis/spiciness	Measure how unusual a user deck is versus a chosen archetype in the meta
